## Silo Ridge - Members Guide

### Booking a Tee Time

Access to book a game is available across the main website headings or in the drop-down menu. Currently the tee times are in 3-hour blocks. Each available time slot has 2 times available.

1. On the hour and
2. Five minutes after the hour. This ensures that any groups of 8 players all tee off directly after each other and avoid any cross over on the course. Remembering that only 8 players can play the course at a time.

### Social Media Warning Reminder

Take plenty of photos but please, **NO SOCIAL MEDIA** whatsoever.

**I am very strict about this. The Course is Private and needs to remain this way. Please ensure any guests you bring observe this rule stringently.**

I am very happy for people to load their photos and comments onto the Website and would love everyone to make a comment or two in the Silo Ridge Guest book located in the Clubhouse.

### Ordering Food

Angel Sussurri have provided an excellent menu available in the website drop down Menu. Please try and order 48 hours ahead if possible and provide your name, time for delivery and credit card details. There is a nominal \$10 delivery fee added per order. Your order will be delivered and placed in the fridge in the storeroom behind the Clubhouse. The code to this room is 2738 and then turn the knob either way.

---

## What to do on arrival

Follow the signs showing “Car Park” and “Bag Drop”. You will then see the Silo Ridge marked shed on the left-hand side closest to the Silos. The code to open the shed is 2738 Enter. You will see 4 available Golf Carts parked diagonally (Numbers 1-4). If these carts are charging, simply unplug them and hang the charging chord back on the wall. The golf carts are ready to be used. Follow the signs to the Clubhouse where the 1<sup>st</sup> Hole is located. Please drive carefully and ALWAYS stay on the cart path.

Connect to the **NATHAN WIFI** when you arrive.

The password is **nathanWPA**

## The Clubhouse

The code to enter the clubhouse is 2738. This can be a little tricky but don't despair. The best way is to place the back of your hand against the electronic pad. This wakes the pad up. From there, simply enter the code **2728 and then #**. This will unlock the Clubhouse. The light switch panel is located on the left-hand side wall after you enter the Clubhouse. The air-conditioning controller is next to this.

Please make yourself at home and enjoy all the facilities. I only ask that you try and replace whatever you might drink the next time you play or better still, if you're coming up with several people, bring some beer, wine or champagne and store it in the storeroom fridge around the corner to the Clubhouse.

Please feel free to bring meat or salads and use the BBQ and kitchen facilities as you need. You will need to turn the gas bottle on and off when you have finished cooking. BBQ utensils and cleaning equipment are in the cupboard below the BBQ. The coffee machine is easy to use and makes a superb Illy coffee. Instructions are next to the coffee machine. Coffee pods are above the machine and milk in the fridge. Please put all dirty crockery

into the dish washer and turn it on when you leave. Dishwasher pods are located under the sink.

The bathroom is adjacent to the Clubhouse door. We are on a septic system here that is designed only for toilet paper. Please use the bin provided for any other items.

There is a First Aid box and a Defibrillator clearly visible and located on the wall of the Clubhouse. Furthermore, every golf cart is equipped with a snake bite kit.

## **Score Card and the Scoring App**

Silo Ridge Scoring cards and pencils are available on the counter in the Club House. The cards clearly outline the local course rules including compulsory Drop Zones.

For those wanting to use a Phone App, a custom Silo Ridge scoring app will be available within the next month.

## **Before your Round**

Please observe the Course Daily Rules – positioned on the counter in the Clubhouse in addition to the Local Course Rules printed on the back of the Silo Ridge cards.

Only 2 groups of 4 players can play on the course at any time. If you are in the second tee time, please follow the group ahead in a timely fashion once they have left the first green. Always be aware of the other Group and hitting to greens if unsighted.

Just another reminder about **NO SOCIAL MEDIA** please.

The course comprises two sets of nine-holes (making 18 holes).

- A) Nine holes from the White tee boxes to the White flags and then
- B) Nine holes from the Blue tee boxes to the Blue flags.

The brass distance markers on each tee box represent distance in metres from the marker to the centre of the green.

The card shows the distance from the white tee box to the white flag and the blue tee box to the blue flag on every hole.

Distance lasers including slop adjustment are allowed.

Always keep golf carts on the cart path.

The toilet is adjacent to the Clubhouse. Please keep the door closed after use.

## **During your Round**

Please drive the golf carts carefully and ensure that they are **ALWAYS** kept on the cart paths.

Observe normal golf etiquette and do not hit up on the group in front of you.

Use the sand bottles to replace your divots to help ensure the course is well maintained. Replacement sand is in the brown box marked "Sand" near the Clubhouse.

Observe the compulsory Drop Zones carefully. This will speed up play.

Don't hunt for balls in the deep bush areas. Black snakes enjoy this habitat and for the sake of a lost golf ball and a penalty shot, I want everyone to stay safe. Each golf cart has a snake bite kit in the console.

After finishing the 6/15 holes head up the hill on the lower side of the ridge and stop at the STOP Sign to check for any golfers hitting off on the 7/16 Tee Box.

There are 2 drinking bubblers around the course

- a) At the 5<sup>th</sup> Tee Box
- b) Behind the Top Green

---

## **Finishing your Round – The Clubhouse**

Please enjoy the Clubhouse facilities. Grab a drink and a snack after 9 holes and fully relax afterwards.

The golf shoe air jet cleaner is located on the Clubhouse veranda.

The TV is operational from the iPad on the counter and channels can be changed via the Foxtel remote.

If people wish to purchase any apparel or golf merchandise, all prices are shown on the display boards, and the “Square” POS system is easy to use and simply requires you to tap your credit card at the Checkout point of the transaction.

If the pie warmer is on, turn the dial to the left to turn it off.

Please leave the Clubhouse neat and tidy afterwards and load the dishwasher and turn it on.

Aim to return your Golf Carts within the 3-hour time block to ensure any group bookings following you also have carts ready for their round in the Silo Ridge cart shed.

Put the carts back on charge after use and remove any rubbish and place in the bin located outside the golf cart shed.

If people want to continue enjoying the Clubhouse after their round, you are welcome to drive your car up to the Clubhouse and park near the practice nets but please allow enough room for golf carts in the subsequent groups to easily turn.

You are most welcome to use the practice putting green and practice hitting nets before or after your round.

Most importantly I want EVERYONE to stay safe and enjoy the Silo Ridge. Bring your friends up and play the course often.

---

I just ask that you respect the Golf Course and the Rules and have a wonderful experience together.

**Ted Nathan (Member # 30)**
